

## **Speakers Bureau: Have an Engineer in the classroom or school**

ACEC of Virginia offers a Speakers Bureau kit that teachers can use to request an Engineer to come to the classroom to talk to students.

Click this link for the kit: [http://www.acecva.org/images/stories/forms/Speaker\\_Request\\_Kit.pdf](http://www.acecva.org/images/stories/forms/Speaker_Request_Kit.pdf)

## **American Council of Engineering Companies of Virginia**

<http://www.acecva.org/>

Nancy Israel, Executive Director

## **About ACEC**

The American Council of Engineering Companies (ACEC) is the voice of America's engineering industry. Council members – numbering more than 5,000 firms representing more than 500,000 employees throughout the country – are engaged in a wide range of engineering works that propel the nation's economy, and enhance and safeguard America's quality of life. These works allow Americans to drink clean water, enjoy a healthy life, take advantage of new technologies, and travel safely and efficiently. The Council's mission is to contribute to America's prosperity and welfare by advancing the business interests of member firms.

ACEC's roots date back to 1909 when a small group of engineers in private practice established the American Institute of Consulting Engineers (AICE), the forerunner of ACEC. Today ACEC is a large federation of 51 state and regional councils representing the great breadth of America's engineering industry. ACEC member firms employ hundreds of thousands of engineers, architects, land surveyors, scientists, and other specialists, responsible for more than \$200 billion of private and public works annually. Member firms range in size from a single registered professional engineer to corporations employing thousands of professionals.

## **Richmond Joint Engineers Council**

<http://www.rjec.org/index.htm>

Mike Howell, Chairman

### **About RJEC**

Richmond Joint Engineers Council (RJEC) is an all-volunteer coalition of engineering, scientific, and technical societies that come together to promote engineering education and to spread the word about engineering. They have a speaker's bureau that teachers can contact to arrange for an engineer to come and speak in the classroom. Go to the RJEC web site for more information:
